

# Corporate Partner

of The Month - May

**Company:**  
ESCO Corporation

**Corporate Partner Since:**  
1984

**Corporate Headquarters:**  
NW Portland, Oregon

**Mission Statement:**  
To be the premier provider of highly engineered parts, components, and solutions.

**Background:**  
The year 2003 marks 90 years for ESCO Corporation, an international group of companies that manufacturers engineered metal parts and components for industrial machinery. Organized into four operating groups: Engineered Products, Turbine Technologies, Integrated Manufacturing, and Engineered Metals; ESCO is well prepared to continue as an industry leader, providing solutions through design innovation, product quality, and outstanding service. ESCO companies serve a diverse range of markets – from mining to aerospace to semiconductor capital equipment.
